

Food & Beverage

The food and beverage industry is among the most globally connected and competitive business sectors, requiring companies to adapt quickly and mitigate risk effectively. At Burr & Forman, we aim to alleviate the pressures faced by our food and beverage clients, which include manufacturers, distributors, wholesalers, retailers, restaurants, and grocers. We focus on navigating the industry's ever-changing regulatory landscape and identifying potential challenges before they occur, so that our clients can focus on growing their business and protecting their brand.

Restaurant Services

We represent clients in all segments of the restaurant industry, with a particular depth of knowledge representing both fast casual and quick-service restaurant owners and operators. Our clients presently own and operate restaurants located throughout the United States.

Beverage Services

Navigating state and federal alcohol and beverage laws can be complicated. At Burr, we provide the right team to guide clients step by step through the issues. We regularly represent clients involved in producing, packaging, distributing, and selling beverages including soft drinks, beer, wine, and liquor.

Franchise & Distribution Services

Burr & Forman attorneys work with a number of franchisors and franchisees advising them on all types of matters related to their business.
